

Agenda Item	Discussion	Actions
<p>1. Home Learning Policy</p>	<p>Many parents are happy with the home learning policy. Potentially more for year 6 to help prepare for secondary.</p> <p>Concerns regarding Seesaw and how children record their home learning. Some families would prefer paper copies.</p> <p>Families would prefer less choice, so expectation is children complete the activity that is set, not choose from 2.</p> <p>Year 1 are not set up on Seesaw yet due to an issue with licenses. That is now sorted and they will be set up shortly.</p>	<p>Academy to look at how home learning is sent home.</p> <p>Academy to review activities set.</p> <p>Year 1 to set up Seesaw</p>
<p>2. Workshops to support learning at home.</p>	<p>Families shared they would welcome more open sessions where they can come and look at learning and books.</p>	<p>JTR shared that we are looking at introducing times when parents can come in and learn with their children for different lessons.</p>
<p>3. AOB</p>	<p>Communication Heating – families would have liked to know about this. JTR shared that because the classrooms were at an acceptable temperature there was no requirement to let families know. If the temperature had dropped further then we would have informed.</p> <p>Year 2 mock SATs. Assessment forms part of our usual classroom practice and therefore this would not be communicated. Children will complete tests, quizzes and assessments throughout the week and year to support identifying gaps in learning.</p> <p>New Policies We have introduced a range of new policies. Year 5 and 6 can still walk home on their own and leave the site if a form is completed and handed in to the office. The same is true with mobile technology – it can still be left in the office but families will need to complete a form.</p>	<p>Review communication.</p> <p>Year 5 and 6 families to fill in new forms.</p>

	<p>Birthday Sweets This decision was taken due to the School Food Standards and also the considerable amount of allergies across the Academy. JTR shared how allergies can start at any time and that children being given sweets and then leaving the site could lead to allergic reactions away from the Academy.</p> <p>School Photos Thank you for all the feedback we will talk to our photographer about this for next year. We do receive a commission on all photos sold which come back to the Academy.</p>	<p>JTR to speak to photographer.</p>
